

## **ABSTRACT OF EPEX DAILY**

Epex Daily is the food and grocery items delivery app. Food is a basic need of human beings. We all buy groceries in our daily life to meet food requirements. In today's fast-growing world, we all are busy making a living. That is why we all prefer buying things online these days. In Epex Daily there four Modules. They are **SUPER ADMIN, SHOP ADMIN, CUSTOMER AND DELIVERY BOY.**

Super admin is the main control of the application. Super admin only can create the Company name, Shop category, Shop admin, Delivery boy and Delivery charges. Without adding the delivery charge shop not able to start the business. Super admin can able activate and deactivate the company. He can able to delete the shop admin also. If the shop admin wants to delete or edit the company or item category wants to contact super admin. Likewise delivery boy wants to change the details or change the password wants to contact super admin.

Shop admin only can able to add the items and special offers. On behalf customer the shop admin able to place an order. Shop admin can able to see the customer bookings and also reject the customer order with proper reason. Shop admin able to view the sales report and history of his shop. Shop admin can able to add free delivery in case shop admin not able to add free delivery, behalf of shop admin super admin also add the free delivery.

Customer only can able to create new account of customer and he only can able to change the password. Customer can able to purchase items what he wants from epex daily. Customer can add different address. Customer can able to edit profile. Customer can give feedback of shop and item.

In delivery boy there is two option they are dedicated and common pool. Dedicated means he get the orders only from respective shop. Common pool means delivery boy gets order from any shop when he is available. Delivery boy can get the orders from shops, pick up the order and delivered to the customer. Delivery boy can get the order once he is in shop limit. Delivery can also transfer his order with proper reason. Delivery boy can able to change the profile picture only. If he wants change any other details wants to contact super admin
